

MOB OF 200 UNEMPLOYED

IN CHICAGO DISPURSED BY
POLICE.

WERE GOING TO DEMAND WORK

At the City Hall—Nobody Was Killed by the Charge of the Police Though Many Were Injured—Large Crows Attracted.

Chicago, Ill., Jan. 23.—The exciting scenes of 1892, when hundreds of the unemployed assembled around the Columbus statue on the lake front preparing to join Coxey's Army in its march to Washington, were again witnessed today, when, under the leadership of Dr. Heitman, 200 unemployed men of the city met to march to the city hall to demand work. Mounted police responded to a riot call and dispersed the mob.

Nobody was killed during the charge of the police, though many members of the mob were severely injured and bruised.

The mob assembled in answer to a call circular issued by Dr. Heitman, who was arrested on the charge of disturbing the peace and incensing a revolt.

The sight of the police attacking the mob attracted a large crowd on the streets, some of whom were crushed and bruised in the jam.

STOPS IMMIGRATION

OF MEXICAN COOLIES
Morning Times Special.

Galveston, Tex., Jan. 23.—The federal immigration inspector, who has been making investigations on the Mexican border, has reported to the Washington authorities that 40,000 Coolies were waiting along the border to get into the United States. Several immigration dealers are involved in their entrance have been arrested.

SAYS BRYAN SHOWED LACK OF JUDGMENT

Washington, Jan. 22.—Henry Waterson says: "Bryan showed lack of judgment in interfering in Beckham fight at Frankfort, Ky., against James McCreary for United States senate. He may divide democrats and lose the state. Bryan has good chance of being elected in the present state of unrest and at any rate he is sure to be the nominee. Hughes of New York will be the nominee on the republican ticket if Taft is not chosen on the first ballot."

NATIONAL GINNERS ASSOCIATION REPORT.

Memphis, Jan. 22.—The National Ginner Association report shows that about 350,000 bales of cotton has been ginned for the period.

The actual figures will not be given out today, except to members of the association.

RESIDENCE BURNED IN CITY OF JACKSON.

Jackson, Miss., Jan. 22.—Many of the members of the legislature will be compelled to seek shelter by where by the complete loss by fire of the residence of Charles C. Campbell and Miss Fannie Brewer, this afternoon where they had been stopping.

The buildings were completely destroyed but there was no fatalities.

DRIVE DESPERATE BY HER POVERTY.

Paducah, Ky., Jan. 21.—Driven desperate by her poverty, Effie Dillingham, with her three children, drank carbolic acid, but her mouth was so severely burned that she did not swallow much of the liquid, and she will recover.

The children will be taken in charge of the humane society.

Not Affected.
The price of living, so I see,
Has soared.
But what on earth is that to me,
I board ***

AFFAIRS AT A. & M. COLLEGE UNSETTLED.

Starkville, Miss., Jan. 23.—The affairs at the A. & M. College are still unsettled. Prof. W. C. Welborne, of Texas, brother of the former commandant at the school made a speech to the boys defending his

brother. At the close of his address he was warmly cheered.

It is now believed that Dr. Creigher and others are at Jackson seeking to have the legislature investigate the whole affair. Many students have returned.

GOOD WATER TESTS

FIRE BUREAU INSPECTOR
SAYS GREENVILLE RANKS
IN CLASS B.

Greenville should get cheaper insurance rates very shortly, if what Mr. J. C. Lawton, of New Orleans, representing the National Fire Bureau, is sustained by his superiors. Tests were made at ten different plugs in the city at the same time, and with 100 pounds of steam 95 pounds pressure at the waterworks the stream shot 100 feet.

Mr. Lawton said this was an excellent test and put Greenville in Class B, and cheaper insurance rates should follow his report to headquarters.

TO CULTIVATE RICE ON PENITENTIARY FARMS

Congressman Humphreys Has Gone to Jackson to Confer With Gov. Noel on the Subject

Congressman Ben G. Humphreys passed through the city yesterday morning, says Friday's Vicksburg Herald, enroute from Greenville to Jackson, where he goes upon a most interesting mission to the governor and penitentiary trustees. Congressman Humphreys in speaking of the object of his trip said:

"I believe from what we have learned by the most careful investigations, that the delta country is the very finest place anywhere to raise rice, and with the hope of getting the state to experiment with several hundred acres of this product, I will visit Governor Noel and the state penitentiary trustees, and urge that this be done."

Congressman Humphreys says that Dr. S. A. Knapp, an eminent and experienced expert in the employ of the government, has made a most thorough investigation of the opportunities for producing rice in the delta, and had pronounced the chance for this plant to thrive as phenomenal.

Dr. Knapp has said that all of the conditions, including the natural lay of the land for the proper irrigation is all that could be desired, and that the great advantages to be gained, should the state make successful results on planting rice, are numerous.

Mr. Humphreys, together with Dr. Knapp, have fully studied the minutest details of the subject in hand, down in southern Louisiana, and their deductions are not theoretical at all, but most practical. Congressman Humphreys says that he will urge the planting of rice on the Parchman farm, and then later other places can thus be planted, when the results are seen.

Another most important matter that Congressman Humphreys spoke of during his visits here, was the improvements going on and contemplated in Sunflower river. It will be recalled that through his efforts, congress has already appropriated the sum of \$100,000 for the purpose of making the necessary surveys and other preliminary work, toward the betterment of the channel of the Sunflower. So far this river has been provided for, that improvements be made only as far as Baird, but the hope is to eventually get the channel so improved, that it will be navigable the year around as far as Hushpuckna. Congressman Humphreys says that he has no doubt but that this will be accomplished, and he intends to so place the matter before congress as its very sensible and urgent demand will appeal for the aid needed. This would open up a new and one of the richest parts of the delta, and place it in closer touch with not only Vicksburg but all the intervening points, which are now almost absolutely separated so hard is it to reach from one place to another. The navigability of Sunflower river would make intercourse not only possible, but most desirable. While here Mr. Humphreys had a very satisfactory interview with Captain Clarke Smith, engineer in charge of the third district, and says that Capt. Smith is a most prepossessing gentleman, and a man in his position, who seems to be so alive and welcome to receive any and all matters which are of vast good to the people generally. Congressman Humphreys hopes to secure the aid of Captain Smith in furthering the Sunflower

river plan, and feels that in him, he has a most intelligent and resourceful ally.

BRYAN AND HARMON SCORE REPUBLICANS

Nashville, Tenn., Jan. 23.—W. J. Bryan rounded out a very busy day in Nashville with an address before a monster audience at the Ryman auditorium last night. Hon. Judson Harmon also spoke briefly.

Mr. Bryan took occasion to say that prosperity was an inevitable result of republican ascendancy and administration had been rudely exploded in the last few months and contrasted the ridicule heaped upon his advocacy of the silver dollar with the prayerful anxiety with which capitalists had so recently grabbed for clearing house certificates. He scored imperialism, the cost of it and the wrong. His history of legislation against trusts and the prosecutions that have been undertaken met with hearty applause.

TWIN STARS ALOFT.

Twin stars aloft, in either clear,
Around each other roll away,
Within one common atmosphere
Of their own natural light and day

And myriad happy eyes are bent
Upon the changeless love alway;
As strengthened by their one intent,
They pour the flood of life and day

So we through this world's waning night,
Shall, hand in hand, pursue our way
Shed round us order, love, and light,
And shine unto the perfect day.

Charles Kingsley

TO A WATER FOWL.

Whither 'midst falling dew
While glow the heavens with the
last steps of day,
Far through their rosy depths, dost
thou pursue,
Thy solitary way?

Vainly the fowler's eye
Might mark thy distant flight to
do thee wrong,
As darkly painted on the crimson
sky,
Thy figure floats along.

There is a power whose care
Teaches thy way along that path-
less coast,
The desert and illimitable air—
Lone wandering, but not lost

Thou'rt gone; the abyss of heaven
Hath swallowed up thy form; yet
on my heart,
Deeply hath sunk the lesson thou
has given,
And shall not soon depart.

He who, from zone to zone,
Guides through the boundless sky
thy certain flight,
In the long way that I must tread
alone,
Will lead my steps aright.

—William Cullen Bryant

The Shepherdress.

She walks, the lady of my delight,
A shepherdess of sheep
Her flocks are thoughts. She keeps
them while,
She guards them from the steep,
She feeds them on the fragrant height
And folds them in for sleep.

She roams maternal hills and bright
Dark valleys safe and deep.
Into her tender breast at night,
The chastest stars may peep.
She walks the lady of my delight,
A shepherdess of sheep.

She holds her little thoughts on sight
Though gay they run and leap,
She is so circumspect and right,
She has her soul to keep.
She walks the lady of my delight,
A shepherdess of sheep.

—Alice Meynell.

COAL WAR AT PADUCAH

PADUCAH, Ky., Jan. 21.—Local coal dealers have engaged in a war that has brought the price down from 17 cents to 15 cents, and promises to make still further reduction in the price. One dealer has been selling at 14 cents although season but his supply was limited and the big kept the price up. Paducah has had to pay more for coal than the inland towns, to which coal is shipped by rail after reaching here by water.

In John Walsh the city of Chicago exhibits the eighth wonder of the world, a convicted millionaire.

It is expected that the demand from spinners will increase the movement which has fallen to smaller proportions than expected.

DR. ATTERBURY FOR PRESIDENT

OF THE MISSISSIPPI LEVEE
BOARD.

THOMAS FOR COMMISSIONER

Monster Petitions for the Above
Appointments signed by Wash-
ington County Citizens, Forward-
ed to Gov. Noel.

A monster petition signed by hundreds of citizens of Washington county has been sent to Governor Noel asking that Dr. J. T. Atterbury be appointed president of the Mississippi Board of Levee Commissioners. The petition is probably the largest ever signed in Washington county and is a worthy testimonial to the ability and integrity of Dr. Atterbury, and the high esteem in which he is held by the county citizenship. He was formerly president of the board under Longino's administration, is full acquainted with the duties of the office, and the responsibilities of the position.

His last term in office was one that redounded with credit to him. Dr. Atterbury is one of the largest planters of the county, and is vice-president of the First National Bank of Greenville.

The many friends of the Hon. E. N. Thomas sent a largely signed petition to Gov. Noel Thursday asking that he be appointed a commissioner on the levee board. Mr. Thomas is thoroughly acquainted with the needs of the levees and would make a very capable and trustworthy member. It is probable that both the gentlemen will be appointed by Gov. Noel. Their terms, if they receive the appointments, will begin July 1, 1908.

JUOROR BELIEVES WALSH WAS NOT GUILTY.

Harvard, Ill., Jan. 23.—Elbert Palmer, the juror who stood out so long for the acquittal of John R. Walsh, who was convicted on Saturday of violating the national banking laws, told Attorney C. J. Hendricks, a lawyer, who recounts in an affidavit a conversation held with him by Palmer, that he did not believe Walsh was technically guilty and that had he known that he could change his verdict when questioned in court by Judge Anderson he would have done so.

Palmer said he would have rather blown out his brains than to have presented a verdict of guilty in court had he known he could have changed it when the jurors were polled.

Palmer is at his farm, near Harvard, a physical wreck. The affidavit made by Hendricks has been sent to the attorneys of Mr. Walsh.

Sought Solitude to Die.

Lewiston, Me., Jan. 23.—The body of a woman found hanging yesterday in the summer cottage of the Rev. H. M. Lowe on the shores of Andros-coggin Lake, in Leeds, was today identified as that of Miss Florence Bigelow, aged forty-six, of Greene.

Miss Bigelow left the railroad station at Leeds Centre on Jan. 9 and presumably walked directly to the cottage, four miles distant and entered by breaking a window. She had apparently been dead more than a week when found.

Despondency due to the death of her parents some time ago and the breaking up of her home is supposed to have been the cause of her suicide. Two brothers, C. H. and Benjamin R. Bigelow live in Boston.

Hermann Ridder, of the Staats Zeitung, wants text-booms on history revised to give Germans credit for their work in America.

A. S. Woolwine, secretary and treasurer of the American Paper Company at Nashville, committed suicide by cutting his throat with a razor.

A New York surgeon is to transplant a cat's heart to the breast of a man. When that man has a fit of temper all the neighbors will hear it.

Large blocks of clearing-house loan checks, amounting to about \$75,000,000 were retired in New York Monday and the amount outstanding now is in the neighborhood of \$20,000,000.
